Rope Chain Machine for Sale

The following is a list of the available complete functional and incomplete RCM machines, including a complete set up for manufacturing tooling for the RCM.

The RCM is producing the so called handmade rope chain having one link opening oriented upward and the adjacent link opening oriented downward. The RCM can produce rope chain from gold, silver or soft steel round wire.

The following are the tooled RCM machines:

| | |
|--|--------|
| RCM 1.8 mm wire diameter .018 in (0.43 mm) | 10 pcs |
| RCM wire diameter .021 in (0.53 mm) | 8 pcs |
| RCM wire diameter .023 in (0.57 mm) | 6 pcs |
| RCM wire diameter .029 in (0.74 mm) | 3 pcs |
| RCM wire diameter .033 in (0.83mm) | 1 pcs |

=====

| | |
|-------|--------|
| Total | 28 pcs |
|-------|--------|

| | |
|---|-------|
| RCM machine incomplete: less stand, less drive (Motor and control) less tooling | 5 pcs |
|---|-------|

| | |
|---|-------|
| Automatic Soldering Machine using soldering paste | 3 pcs |
|---|-------|

Wire Size (.43mm, 0.53mm and .057mm)

| | |
|--|-------|
| Automatic Soldering Machine incomplete | 2 pcs |
|--|-------|

Tooling drawing, casting moldings, miscellaneous tooling's and spare parts.

Complete carbide tools manufacturing set up including profile projector and shaping.

=====

| | |
|--|--------|
| Rope chain machine manufacturing making closed link rope chains using wire diameter .006 inch (.16mm) , and .007 inch, (.18mm) | 10 pcs |
|--|--------|

We are ready to consider any reasonable offer.
